# DERJERS INTERNATIONAL

## Rejuvé 3: Hair's Best Friend

Kenyatta D. Pious

**Rejuvé 3** is a therapeutic hair system under the **Derjers International** umbrella, the first African-American and Latin owned company on the market and co-founded by NBA player Jermaine Jackson. **Rejuvé 3 can be used by all hair types and ensures a sleekness and manageability that is unparalleled in the industry.** Rejuvé 3 works from the **cellular level** to unclog pores and stimulate blood circulation to the scalp - - the result will be **thicker, lustrous hair**. Dry over-treated hair is no longer a problem nor will chicettes find taming their tangles a problem.

The Rejuvé 3 solution (**which is uber affordable**, by the way) can be used on hair damaged by hair coloring, perms and chemical hair treatments. Hair will be rejuvenated and restored to an earlier luster - - this is like a do-over for chemically damaged hair. **Rejuvé 3 has been previously used exclusively by dermatologists and hair care clinics for over 20 years**, but is now available to all chicettes over-the-counter.

**Rejuvé 3 formula has been proven to:**

- Prevent hair loss and stimulate hair growth
- Remove chemically build-up, bacteria and debris
- Fortify weak hair and scalp
- Relieve dryness flakes and itching
- Stop breakage and split-ends
- Add volume, shine, leaving hair silky soft
- Enhance overall health & manageability

Now chicettes can only look forward to their best hair days with Rejuvé 3 and its easy 3-step solution.
